

Investment Objective of Punjab Pension Fund (PPF) is to generate revenue for the discharge of pension liabilities of the Government of Punjab.

Performance Review

The Fund's Net Assets grew by 8.8% during 7M FY 2020-21 and reached to Rs. 81.6 billion. Equity Portfolio of the Fund led the performance of the Fund.

Fixed Income: The Fund's fixed income portfolio posed a net annualized return of 12.26% during 7M FY2020-21. During January 21, the Fixed Income portion of the Fund's portfolio posted an annualized return of 11.04% as compared 12.39% p.a. last month. The return for the month of January-21 was slightly lower as compared to previous month because of an upward movement in market yields of PIBs; which brought down the mark to mark return of Fund's PIB's portfolio. The portfolio of National Saving Schemes shall support the return of the Fund for the FY 21.

Equity: During first 7M of FY20-21, PPF's Equity Portfolio posted a return of 33.65% vs its applicable benchmark's return of 34.72%. The significant equity market performance helped the Fund to post an overall healthy return during the 7M FY20-21.

In January-21, the YoY CPI came down to 5.65% as compared to 7.98% in last month. This decline is mainly attributed to the high base effect and the decline in perishable food items. On MoM basis, inflation recorded a decline of 21 basis point. The CPI for the month has been led by sharp decrease in perishable food index. The SBP is maintaining its stance of monetary policy and has kept its inflation target of 7% to 9% for FY21. The OIC of PPF is of the view that the SBP shall keep its Policy Rate static for at least another six months as a policy to support growth.
