

The investment objective of the Punjab Pension Fund (PPF) is to generate revenue to discharge the government of Punjab's pension liabilities.

Performance Review The Fund's Net Assets grew by 14.43% during 5M FY 2023-24.

Fixed Income Portfolio: During the period under review, the fund's Fixed Income portfolio, which constitutes around 86% of the Fund, posted an annualized return of 23.1%. Although the Fund has a long-term investment objective, the OIC of the Fund kept the duration of its fixed-income portfolio short, which helped the Fund avoid huge losses due to steep interest rate hikes by the SBP. A significant portion of the Fund's portfolio is invested in floating-rate bonds and short-term bank placements.

Equity Portfolio: The equity portfolio, which constitutes around 14% of the Fund, posted a holding period return of 48%.

During November 23, the YoY CPI jumped to 29.2%, while MoM inflation rose by 2.7% compared to 1.1% last month, primarily driven by an 11.0% MoM increase in the housing index due to gas price revision. With govt efforts, inflation is expected to remain in check in the short term; however, medium-term risks persist due to external uncertainties and the new IMF program following the elections.

	Fund Performance*	Liability Estimate	Fund Size (a)	Estimated** 30-yr Pension Liabilities (b)	(a)/(b)
FY09	15.00%	22.38%	3.5	636.3	0.55%
