## INDEPENDENT AUDITOR'S REPORT TO THE MANAGEMENT COMMITTEE OF PUNJAB PENSION FUND

# Report on the Audit of the Financial Statements

## Opinion

We have audited the annexed financial statements of PUNJAB PENSION FUND ("the Fund"), which comprise the statement of assets and liabilities as at June 30,, 2022, and income statement, the statement of comprehensive income, the statement of changes in accumulated pension fund for the year then ended, the statement of cash flows, and notes to the financial statements including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as applicable in Pakistan.

## **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Information other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Fund's Annual Report for the year ended June 30, 2022, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Members of the Management Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Punjab General Provident Investment Fund Act 2009 and Punjab General Provident Investment Fund Rules, 2010 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Management Committee is responsible for overseeing the Fund's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
  detecting a material misstatement resulting from fraud is higher than for one resulting from
  error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
  override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting
  and, based on the audit evidence obtained, whether a material uncertainty exists related to
  events or conditions that may cast significant doubt on the Fund's ability to continue as a going
  concern. If we conclude that a material uncertainty exists, we are required to draw attention in
  our auditor's report to the related disclosures in the financial statements or, if such disclosures
  are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained
  up to the date of our auditor's report. However, future events or conditions may cause the Fund
  to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
  the disclosures, and whether the financial statements represent the underlying transactions and
  events in a manner that achieves fair presentation.

We communicate with the members of the management committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Fund as required by the Punjab Pension Fund Act, 2007 and the Punjab Pension Fund Rules, 2007;
- b) the statement of assets and liabilities, income statement, the statement of comprehensive income, the statement of changes in accumulated pension fund and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Punjab Pension Fund Act, 2007 and the Punjab Pension Fund Rules, 2007 and are in agreement with the books of account and returns; and
- investments made and expenditure incurred during the year were for the purpose of the Fund's business.

## Other Matter

The financial statements of the Fund for the year ended June 30, 2021 were audited by another firm of Chartered Accountants who vide their report dated December 05, 2022, expressed an unmodified opinion thereon.

The engagement partner on the audit resulting in this independent auditor's report is Muhammad Imran.

# PUNJAB PENSION FUND NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

# 1 LEGAL STATUS AND NATURE OF BUSINESS

## Status of the Fund

The Punjab Pension Fund ("the Fund") has been established under the Punjab Pension Fund Act 2007 ("the Act") to generate revenue for the discharge of pension liabilities of the Government of Punjab. The Fund is a body corporate with perpetual succession. The Fund shall perform such functions and exercise such powers as are vested in it under the Act and the Punjab Pension Fund Rules 2007 ("the Rules"). The management and administration of the Fund vests in the Management Committee notified under section 5 of the Act. The Fund is responsible for investing the funds in profitable avenues to generate revenue. Currently, the Fund has invested in a diversified portfolio of government securities, national saving scheme, term deposit receipts, debt securities, equity shares, mutual fund units and bank deposits.

The Punjab Pension Fund Trust ("the Trust") has been established under the Punjab Pension Fund Act 2007 ("the Act") and given the status of Trust under a trust deed executed on 27 September 2011 between Punjab Pension Fund ("the Fund") and Central Depository Company of Pakistan Limited ("the Trustee"). The Fund, through the Management Committee and the Trustee, have created the Trust for the benefit of the Reserve Pension Fund created under Section 3 of the Act. The Trust shall be of a perpetual nature and shall continue until the Trust is dissolved upon receipt of directions from the Government of Punjab. The Fund shall manage, operate and administer the Trust and the Trustee will act as the custodian of the assets of the Fund.

Expenses incurred on operations of the Fund, including expenses relating to functioning of the Management Committee, are paid out of the trust property in the form of annual / supplementary budgets approved by the Management Committee. Budgetary amounts are transferred to separate Punjab Pension Fund - Expense Account ("the Expense") established by the Fund under the Rules, for incurring operational expenses of the Fund other than related to investments.

# 2 GEOGRAPHICAL LOCATION

The registered office of the Fund is situated at 112- Tipu Block, New Garden Town, Lahore.

# 3 BASIS OF PREPARATION

# 3.1 Statement of Compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards ("IFRSs") issued by the International Accounting; Standards Board ("IASB") as notified under the Companies Act, 2017.

The Fund has also complied with the requirements of Punjab Pension Fund Act, 2007 and Punjab Pension Fund Rules, 2007 which requires extended disclousers:

- Remuneration of the trustee;
- Safe custody and bank charges;
- Auditor's remuneration;
- Legal and other professional fees; and
- Percentage of investment with respect to net assets and total investments.

The management of the fund has no intention to provide benefits to employees of the Government of Punjab from available funds on or after the termination of their services. Further, they are also not obliged to provide these benefits as per the Act and the Rules. Considering this fact, these financial statements are not prepared as per "IAS 26 Accounting and Reporting by Retirement Benefit Plans".

## 3.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except for certain investments which are carried at fair value in accordance with the requirements of IFRS 9: 'Financial Instruments'.

In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

# 3.3 Functional and presentation currency

These financial statements are presented in Pak Rupees ("Rs."), which is the Fund's functional and presentation currency for the Fund.

# 4 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS TO PUBLISHED APPROVED ACCOUNTING STANDARDS

# 4.1 New accounting standards, amendments and IFRS interpretations that are effective for the year ended June 30, 2022

The following standards, amendments and interpretations are effective for the year ended June 30, 2022. These standards, amendments and interpretations are either not relevant to the Fund's operations or did not have significant impact on the financial statements other than certain additional disclosures.

Effective date (annual periods beginning on or after)

Interest Rate Benchmark Reform - Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)

January 01, 2021

Amendments to IFRS 16 'Leases' - Extended practical relief regarding Covid - 19 related rent concessions

April 01, 2021

1300

# 4.2 New accounting standards, amendments and interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, amendments and interpretations are either not relevant to the Fund's operations or are not expected to have significant impact on the Fund's financial statements other than certain additional disclosures.

> Effective date (annual periods beginning on or

	after)
Amendments to IFRS 3 'Business Combinations' - Reference to the conceptual Framework	January 01, 2022
Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current	January 01,2024
Amendments to IAS 1 'Presentation of Financial Statements' - Disclosures of Accounting Policies	January 01, 2023
Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Definition of Accounting Estimates	January 01, 2023
Amendments to IAS 12 'Income Taxes' - Deferred Tax related to Assets and Liabilities arising from a single transaction	January 01, 2023
Amendments to IAS 16 'Property, Plant and Equipment' - Proceeds before intended use	January 01, 2022
Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' - Onerous Contracts - Cost of fulfilling a contract	January 01, 2022

Certain annual improvements have also been made to a number of IFRSs.

The following new standards and interpretations have been issued by the International Accounting Standards Board (IASB), which have not been adopted locally by the Securities and Exchange Commission of Pakistan (SECP):

First Time Adoption of International Financial Reporting Standards IFRS 17 Insurance Contracts

#### 5 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the presentation of these financial statements are set out below. These policies have been consistently applied to all the years presented in these financial statements except as stated otherwise in notes to these financial statements.

# 5.1 Operating fixed assets and depreciation

## Owned assets

These are stated at cost less accumulated depreciation less accumulated impairment (if any). Depreciation is charged to income statement by applying the straight line method so as to write off the operating fixed assets over their expected useful life at the rates given in note 12. Depreciation is charged from the month of acquisition while no depreciation is charged in the month of disposal of asset. Normal repairs and maintenance are charged to income as and when incurred.

## **Donated assets**

Non - monetary assets received under Decentralization Support Program from Government of Punjab are being recorded at nominal value.

Profit/loss on disposal of the fixed assets represented by difference between sale proceeds and the carrying amount of the assets is included in income statement.

# 5.2 Intangibles

Intangibles are stated at cost less accumulated amortization for finite intangible asset and identified impairment loss, If any. Finite intangible assets are amortised using straight line method over its estimated useful life at the rates mentioned in the note 14. Amortization on additions to finite intangible assets is charged from the month in which an asset is acquired or capitalized while no amortization is charged for the month in which the asset is disposed off.

# 5.3 Employees benefits

# Defined benefit plan-gratuity

The Fund operates an un-funded defined benefit gratuity scheme for its contractual employees subject to completion of a prescribed qualifying period of service, except for those hired on a temporary, daily wage, or contingent basis. Provision is made in the financial statements based on the actuarial valuation using the Projected Unit Credit Method. The latest actuarial valuation for the gratuity scheme was carried out on June 30, 2022 using the projected Unit Credit Method.

During the year, the Fund introduced a Gratuity Scheme effective from the date of appointment of the employees. As per the actuary report, the impact for the prior periods is Rs. 13.854 million. The management considered the impact as immaterial in the context of these financial statements. Hence, this has not been considered as a change in accounting policy, and the financial statements have not been restated in this regard.

# Defined contribution plan-staff provident fund

The Fund also operates a staff provident fund scheme as defined contribution plan for its contractual employees, except those hired on a temporary, daily wage, or contingent basis. Equal monthly contributions are made by the Fund and the staff at the rate of 10% of salary.

## Compensated absences

A provision is made for the estimated liability for annual leaves due to services rendered by the employees against un-availed leaves, as per terms of the service contract, up to the reporting date.

Boo

#### 5.4 Investments

The Fund classifies its investments as fair value through profit or loss, fair value through OCI and amortized cost.

## Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

## a) Government securities

Fair value of government securities is determined at average rate obtained from PKRV rate sheet and quoted on Mutual Funds Association of Pakistan ("MUFAP") and such average rate based on remaining tenor of the security.

# b) Debt securities

Fair value of debt securities, other than government securities, is determined on the basis of prices announced by the MUFAP in accordance with the Securities and Exchange Commission of Pakistan ("SECP") Circular No. 1 of 2009 and Circular 33 of 2012.

## c) Listed shares

Fair value of listed shares is determined on basis of closing quoted market prices on the Pakistan Stock Exchange (PSX).

## d) Mutual Fund

Fair value of mutual fund's units is determined with reference to the net asset value declared by the respective fund.

# Trade date accounting

Regular purchases and sales of financial assets are recognized on the trade date - the date on which fund commits to sell or purchase an asset.

# 5.5 Revenue recognition

- Gains / losses arising on sale of investments are included in the income statement on the date at which the transaction takes place.
- Dividend income is recognized when the Fund's right to receive dividend is established. Dividend received on marketable securities acquired after the announcement of dividend till the book closure date is accounted for as reduction in the cost of investment.
- Interest income on government securities, Treasury bills, Bonds, TDRs and term finance certificates is recognized on an accrual basis using the effective interest rate method.
- Interest income on bank deposits and national saving schemes is recognized on accrual basis effective interest rate method.

# 5.6 Financial instruments - initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

## Financial assets - initial recognition

The Fund has adopted IFRS 9 Financial Instruments with effect from 1 July 2018. Accordingly, financial assets are classified, at initial recognition, and subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Fund's business model for managing them. With the exception of trade debts and bank balance that do not contain a significant financing component or for which the Fund has applied the practical expedient, the Fund initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade debts that do not contain a significant financing component or for which the Fund has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policy in Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Fund's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Fund commits to purchase or sell the asset.

The Fund's financial assets include Investments and bank balances.

## Financial assets - subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- a) Financial assets at fair value through profit or loss.
- b) Financial assets at amortized cost (debt instruments).
- c) Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).
- d) Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments).

Page - 6

# a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in income statement.

This category includes derivative instruments and listed equity investments which the Fund had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognized as other income in the income statement when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in income statement. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

The Fund have financial assets designated at fair value through P&L (equity instruments).

# b) Financial assets at amortized cost (debt instruments)

This category is the most relevant to the Fund. The Fund measures financial assets at amortized cost if both of the following conditions are met:

The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and

The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in income statement when the asset is derecognized, modified or impaired.

The Fund's financial assets at amortized costs includes investments.

# c) Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Upon initial recognition, the Fund can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in income statement when the right of payment has been established, except when the Fund benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Fund does not have any financial assets designated at fair value through OCI (equity instruments).

# d) Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)

The Fund measures debt instruments at fair value through OCI if both of the following conditions are met:

The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and

The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in income statement and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

The Fund does not have any financial assets designated at fair value through OCI (debt instruments).

# Financial assets - Derecognition

A financial asset (or, where applicable a part of a financial asset or part of a Fund of similar financial assets) is primarily derecognized when:

The rights to receive cash flows from the asset have expired; or

The Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Fund has transferred substantially all the risks and rewards of the asset, or (b) the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Fund has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Fund's continuing involvement in the asset. In that case, the Fund also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Fund has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset, is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Fund could be required to repay.

# Financial assets - Impairment

The Fund recognizes an allowance for expected credit losses ("ECL") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition. ECLs are provided for credit losses that result from default events that are possible within the axt 12-months (a 12-month ECL). For those credit exposures for which there has been a significant time to the credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Fund considers a financial asset in default when contractual payments are 60 days past due. However, in certain cases, the Fund may also consider a financial asset to be in default when internal or external information indicates that the Fund is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Fund. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

For trade debts, the Fund applies a simplified approach in calculating ECLs based on lifetime expected credit losses. The Fund has established a provision matrix that is based on the Fund's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The expected credit losses are recognized in income statement.

For bank balances, the Fund applies a simplified approach in calculating ECLs based on lifetime expected credit losses. The Fund reviews internal and external information available for each bank balance to assess expected credit loss and the likelihood to receive the outstanding contractual amount. The expected credit losses are recognized in income statement.

## Financial liabilities

# Financial liabilities - initial recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Fund's financial liabilities include long term loans, short term borrowings utilized under markup arrangements, creditors, liabilities against assets subject to finance lease, accrued and other liabilities.

# Financial liabilities - subsequent measurement

# Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in income statement when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of comprehensive income.

This category applies to long term loans, short term borrowings utilized under mark-up arrangements, creditors, liabilities against assets subject to finance lease, accrued and other liabilities.

## Financial liabilities - derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of profit or loss.

# 5.7 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of assets and liabilities at cost. Cash and cash equivalents comprise of cash in hand, term deposit receipts having maturity of three months or less and balances maintained with banks.

# 5.8 Provisions and contingencies

A provision is recognized in the statement of assets and liabilities when the Fund has legal or constructive obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each reporting date and are adjusted to reflect the current best estimates.

The Fund reviews the status of all pending litigations and claims against the Fund. Based on its judgment and the advice of the legal advisors for the estimated financial outcome, appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized on the statement of assets and liabilities.

# 5.9 Impairment

At each balance sheet date, the carrying amount of assets is reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Impairment losses are recognized as expenses in the income statement.

## Financial assets

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment loss in respect of a financial asset measured at fair value is determined by reference to that fair value. All impairment losses are recognized in income statement. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss is reversed only to the extent that the financial asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of amortization, if no impairment loss had been recognized.

## Non-financial assets

The carrying amounts of the non-financial assets are reviewed at each reporting date to identify the circumstances indicating the occurrence of impairment loss or reversal of previous impairment losses. If any such indication exists, the recoverable amount of such asset is estimated and impairment loss is recognized in the income statement. Where an impairment loss subsequently reverses, the carrying amount of such asset is increased to the revised recoverable amount. A reversal of the impairment loss is recognized in the income statement.

# 5.10 Foreign currency translation

Transactions denominated in foreign currencies are translated to Pak Rupee at the foreign exchange rate ruling at the date of transaction. Assets and liabilities in foreign currency are translated at the rates of exchange prevailing on the reporting date. All exchange gains/losses are taken to the income statement.

## 5.11 Transactions with related parties

The Fund enters into transaction with related parties on an arm's length basis. Prices for transactions with related parties are determined using admissible valuation methods.

# 5.12 Taxation

The income of the Fund is exempt from tax under Clause 57(3)(xii) of Part I of the Second Schedule to the Income Tax Ordinance 2001, therefore no provision for taxation has been made in these financial statements.

#### 6 USE OF JUDGMENTS AND ESTIMATES

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities and income and expenses. The estimates and associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The area where various assumptions and estimates are significant to Fund's financial statements or where judgments were exercised in application of accounting policies principally related to:

		Note
-	Classification, valuation and impairment if any, of investments	8
-	Provisions and contingencies	5.8
	Property, plant and equipment	12

## a) Defined benefit plan

Certain actuarial assumptions have been adopted by external professional valuer for valuation of present value of defined benefit obligations. Any changes in these assumptions in future years might affect unrecognized gains and losses in those years.

# b) Property, plant and equipment

The Fund reviews the useful lives and residual values of property, plant and equipment on a regular basis. Any change in estimate in future years might affect the carrying amounts of the respective items of property, plant and equipment's with corresponding effect on depreciation charge and impairment.

15.1 This represents a staff provident fund scheme as defined contribution plan for its contractual employees, except those hired on a temporary, daily wage, or contingent basis. Equal monthly contributions are made by the Fund and the staff at the rate of 10% of salary. There is no separate bank account maintained for the employee provident fund.

## 15.2 Gratuity payable

## a) General description

The scheme provides for terminal benefits for all its contractual employees who qualify for the scheme. The defined benefit payable to each employee at the end of his service comprises of total number of years of his service multiplied by last drawn basic salary including cost of living allowance.

Annual charge is based on actuarial valuation carried out by an independent approved valuer M/s Anwar Associates as at June 30, 2022 using the Projected Unit Credit method.

The Fund faces the following risks on account of

Interest rate risk - The present value of the defined benefit liability is calculated using a discount rate determined by reference to the market yields at the end of the reporting period on high quality corporate bonds, or where there is no deep market in such bonds, by reference to market yields on government bonds. Currencies and terms of bond yields used must be consistent with the currency and estimated term of the postemployment benefit obligations being discounted. A decrease in bond interest rates will increase the liability, and vice versa.

Salary risk - The present value of the defined benefit liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the liability and vice versa.

Withdrawal rate risk - The present value of the defined benefit liability is calculated by reference to the best estimate of the withdrawal rate / attrition rate of plan participants. As such, an increase in the withdrawal rate will decrease the liability and vice versa.

Mortality rate risk - The present value of the defined benefit liability is calculated by reference to the best estimate of the mortality of plan participants both during employment. An increase in the life expectancy of the participants will increase the liability and vice versa.

b)	Significant actuarial assumptions	2022 Percentage Per ai	2021 Percentage inum
	Following are significant actuarial assumptions used in the valuation:		
	Discount rate	13.75%	.=
	Expected rate of increase in salary	12.75%	
	Withdrawal rates	5%	-
	Expected mortality rate	2.67%	
	Retirement age	60

- 21.1 Salaries, wages & other benefits includes contribution to staff retirement benefits amounting to Rs. 1.011 million (June 30, 2021: Nil) and provision for gratuity expense amounting to Rs. 17.132 million (June 30, 2021: Nil). This includes prior period amounting to Rs. 13.854 million and recorded prospectively due to immaterial impact.
- 21.2 The Fund has obtained a building on operating lease. According to management, these rental agreements have been classified as short-term leases due to their duration being less than 12 months or low value. The Fund applies the short-term lease recognition exemption to its short-term leases of its assets (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

## 23 NATIONAL SAVINGS CENTER - SERVICE CHARGES

This represents services charges deducted at the rate of 1% of face value on early maturity of regular income certificates issued by National saving center having face value of Rs 14,500 million (June 30, 2021: Nil).

## 24 BUDGETARY (PAYMENTS) / RECEIPTS FOR THE YEAR

This amount represents the approved budgeted expenses from management committee which are transferred from fund account to expense account to meet operational expenditure for the year ended June 30, 2022 (June 30, 2021: Rs 50.855 million).

## 25 TAXATION

The income of the Fund is exempt from tax under Clause 57(3)(xii) of Part I of the Second Schedule to the Income Tax Ordinance 2001, therefore no provision for taxation has been made in these financial statements.

# 26 FINANCIAL INSTRUMENTS - FAIR VALUES AND RISK MANAGEMENT

The Fund has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Fund's risk management policies are established to identify and analyse the risks faced by the Fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly.

# 26.1 Risk management framework

The Management Committee has overall responsibility for the establishment and oversight of Fund's risk management framework. The Management Committee is also responsible for developing and monitoring the Fund's risk management policies.

This note presents information about the Fund's exposure to each of the above risks, the Fund's objectives, policies and processes for measuring and managing risk.

The Fund's risk management policies are established to identify and analyze the risks faced by the Fund to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to react to changes in market conditions and the Fund's activities. The Fund through its training and management standards and procedures aims to maintain a disciplined and constructive control environment in which employees understand their roles and responsibilities.

The Fund's audit committee oversees how management monitors compliance with the Fund's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Fund. Audit committee is assisted in its oversight role by internal audit department. Internal audit department undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

## 26.2 Credit risk

Credit risk is the risk that a counter party to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund, resulting in a financial loss to the Fund. At the year end it arises principally from debt securities held, term deposits, bank balances and profit/markup recoverable, etc. Out of the total financial assets of Rs. 94,042 million (2021: Rs. 85,186 million) financial assets which are subject to credit risk amount to Rs. 19,256 million (2021: Rs. 4,783 million).

# 26.2.1 Management of credit risk

The Fund's policy is to enter into financial contracts in accordance with the internal risk management policies and investment policies approved by the Investment Committee. The Fund does not expect to incur material credit losses on its financial assets. Investments in government securities is risk free. Investment is made in scheduled banks having a minimum Long Term rating of "AA-".

## 26.2.2 Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date is:

	Statement of assets and liabilities		
	2022	2021	
	Rupees	Rupees	
Bank balances	15,483,914,456	1,416,291,458	
Investments - Fair value through OCl	3,545,394,436	3,282,849,077	
Accrued interest on TFCs & Sukuks	, 83,465,847	68,666,498	
Interest on Bank Accounts	138,315,952	7,468,346	
Security deposits	880,000	3,380,000	
Receivable from Punjab General Provident			
Investment Fund - Related Party	4,597,320	4,597,320	
	19,256,568,011	4,783,252,699	

Differences in the balances as per the statement of assets and liabilities and maximum exposure in investments is due to the fact that investments of Rs. 74,785 million (2021: Rs. 80,402 million) relates to investments in Government Securities & other assets which are not considered to carry credit risk.

## 26.2.3 Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. Around 79.52% (2021: 94.38%) of the Fund's financial assets are in Government securities which are not exposed to the credit risk, while the remaining portfolio of financial assets is broadly diversified and transactions are entered into with diverse credit-worthy counterparties having higher credit rating from the benchmark credit ratings as mentioned in Punjab Pension Fund Investment Policy, thereby mitigating any significant concentrations of credit risk.

Details of Fund's concentration of credit risk of financial instruments by industry distribution are as follows:

	202	22	202	1
	Rupees	Percentage	Rupees	Percentage
Commercial banks	15,622,230,408	81.13%	1,423,759,804	29.77%
Miscellaneous	3,634,337,603	18.87%	3,359,492,895	70.23%
	19,256,568,011	100%	4,783,252,699	100%

The credit quality of bank balances and investments in term finance certificates that are neither past due nor impaired can be assessed by reference to external credit ratings or to historical information about counterparty default rate:

Due to the Fund's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non performance by these counter parties on their obligations to the Fund. Accordingly, the credit risk is minimal.

#### Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed on sale.

## Management of risk

For the vast majority of transactions, the Fund mitigates this risk by conducting settlements through a broker or bank to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

# 26.3 Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due.

## 26.3.1 Management of liquidity risk

The Fund's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. For this purpose the Fund has effective cash management and planning policy to ensure availability of funds and to take appropriate measures for new requirements. All liabilities are payable in respect of expenses as approved the management committee in budget for the year.

The following are the contractual maturities of financial liabilities as on:

	Carrying amount	Contractual Cashflows	Six months or less	Six to twelve months	One to Two years	Two to five years
			Rupe	es		
2022						
Financial liabilities

						Pm.

#### 26.4 Market risk

Market risk is the risk that changes in market prices, such as interest rates, equity prices and foreign exchange rates will effect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

## 26.4.1 Management of market risks

The Fund manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Management Committee and regulations laid down by the Punjab Pension Fund Act 2007 and Punjab Pension Fund Rules 2007. The maximum risk resulting from financial instruments equals their fair values.

The Fund is exposed to interest/markup rate and price risks only.

#### 26.4.2 Price risk

Primarily, the Fund's equity investments are exposed to the price risk. Price risk is limited by the Fund through diversification of its portfolio and active monitoring of capital markets.

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. The Fund is exposed to equity price risk since it has investments in quoted equity securities amounting to Rs. 30,422 million (June 30, 2021: 14,340 million) at the balance sheet date.

The Fund's strategy is to hold its strategic equity investments for long period of time. Thus, Fund's management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee remain favorable. The Fund strives to maintain above average levels of shareholders' capital to provide a margin of safety against short term equity price volatility. The Fund manages price risk by monitoring exposure in quoted equity securities and implementing strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are based on quoted market prices as of the balance sheet date and available for sale equity instruments which are stated at fair value.

Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Furthermore, amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold. The Fund has no significant concentration of price risk.

## Sensitivity analysis

If the fair value of mutual fund and equity shares, at the year end date, fluctuate by 100 bps higher / lower with all other variables, net income for the year and 2022 would have been affected as follows:

300

	Profit and loss 100 bps		
	Increase	Decrease	
	Rupees		
As at June 30, 2022 Cash flow sensitivity	3,042,292,634	(3,042,292,634)	
As at June 30, 2021 Cash flow sensitivity	1,434,000,489	(1,434,000,489)	

## Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

# Fair value sensitivity analysis

The Fund does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in market price at the reporting date would not affect income statement.

# 26.4.3 Interest/markup rate risk

Interest/markup rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Currently the Funds interest/markup rate exposure arises on investment in Government securities, term finance certificates, deposits in national savings account, term deposit receipts with banks and balance with bank on saving account. Currently all of the Fund's investment carry fixed interest rates. In addition the Fund may change the mix of its portfolio to enhance the earning potential of the Fund subject to the above defined guidelines. Other risk management procedures are the same as those mentioned in the credit risk management. At balance sheet date, details of the interest rate profile of the Fund's interest/markup bearing financial assets were as follows:

Character and the second and the sec	Financia	l assets

Page - 33

# Fair value sensitivity analysis for fixed rate instruments

The Fund does not account for any fixed rate financial assets and liabilities at fair value through profit or loss.

# Cash flow sensitivity analysis for variable rate instruments

	Profit and loss 100 bps		
	Increase	Decrease	
	Rupees		
As at June 30, 2022			
Cash flow sensitivity-Variable rate financial asset	176,945,685	(176,945,685)	
As at June 30, 2021			
Cash flow sensitivity-Variable rate financial asset	33,647,198	(33,647,198)	

None of the financial liabilities carry any interest rate.

The effect may be higher/lower, mainly as a result of higher/lower mark-up income on investment.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Fund.

## 27 RISK MANAGEMENT FRAMEWORK

The Management committee has overall responsibility for establishment and over sight of the Fund's risk management framework. The executive management team is responsible for developing and monitoring the Fund's risk management policies. The team regularly meets and any changes and compliance issues are reported to the Management committee through the audit committee. The audit committee oversees compliance by management with the Fund's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Fund.

#### 28 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

IFRS 13 'Fair Value Measurement' requires the Fund to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

The Fund measures fair value using the fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (i.e. unobservable) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

	Carrying amount			Fair value
