

The Investment Objective of the Punjab General Provident Fund (PGPF) is to generate revenue to discharge the General Provident Fund liabilities of the Government of Punjab.

Performance Review

The Fund's assets grew by 2.48% during 1M FY 2025-26.

Fixed Income: During the period under review, the Fund's Fixed-Income portfolio, which constitutes around 83% of the Fund, posted an annualized return of 17.6%. This performance was primarily driven by the Fund's timely allocation of an overweight position in long-term fixed-rate PIBs, ahead of the monetary easing cycle.

Equity: The equity portfolio, which constitutes approximately 17% of the Fund, posted a holding-period return of 7.7% compared to a market return (KSE 100 index) of 10.9%.

Going forward, in FY 2025-26, the Fund will continue to maintain a prudent mix of fixed-income and equity allocations, while actively rebalancing to align with evolving interest rates and market conditions.
