

The Punjab Pension Fund (PPF) 's investment objective is to generate revenue to discharge the Government of Punjab's pension liabilities.

Performance Review The Fund's Net Assets grew by 1.14% during 1M FY 2024-25.

Fixed Income Portfolio: The Fund maintains a well-balanced portfolio of floating-rate and fixed-rate instruments. The floating-rate instruments provide a reasonable spread over the benchmark rates, and the fixed-rate instruments will not only provide a hedge against declining interest rates scenario but also generate capital gains, thereby enhancing the overall portfolio performance.

Equity Portfolio: The equity portfolio, which constitutes around 13% of the Fund, posted a holding period return of -1.9% compared to a market (KSE 100 index) return of -0.7%. The Fund will keep its equity exposure near the strategic level while diversifying it among high dividend-yielding sectors/stocks.

Overall, the Punjab Pension Fund's portfolio is well-positioned to outperform its benchmark in FY 2024-25.
